# About Us

' DR:FILTEC ' is a firm of repute, which has been in the field for a decade providing effective solutions to drinking water purity problems of not only homes but industrial and business organizations as well. We deal with all kinds of state-of-the-art water filters manufactured by World class companies. We offer erection and after sales services.

'DR:FILTEC ' has designed, proposed and commissioned a number of industrial water treatment plants with indigenous and foreign technology. We are providing superior quality products, customized water treatment solutions, competitive pricing policies. We are equipped with expert aqua engineers & technicians to attend to customer care issues and to provide on call services round the clock. We also take up major industrial projects with capacity ranging from 08 LPH to 50,000 LPH.
